## Help the Toothbrush Find the Teeth

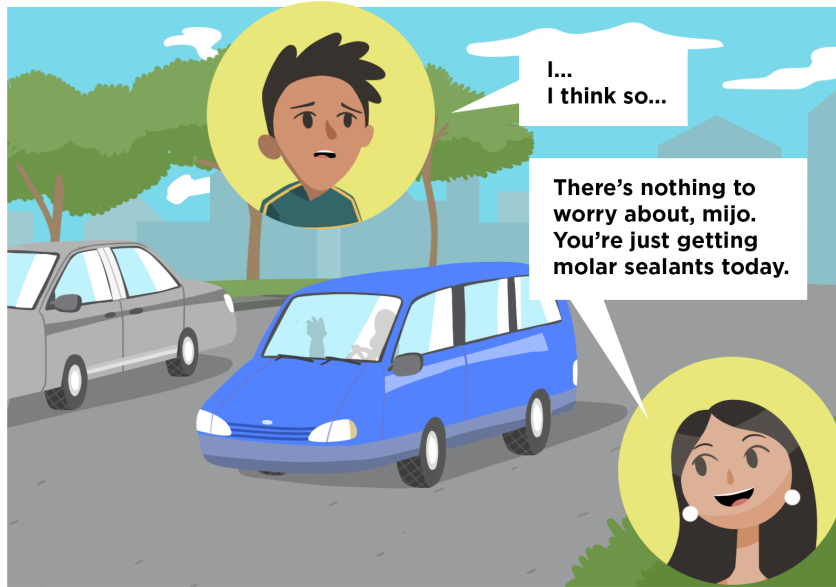

# Seal Today to Prevent Decay.

Mom!

Hey Oscar, ready for the dentist?

I... I think so...

There's nothing to worry about, mijo. You're just getting molar sealants today.

Will it hurt?

Not at all! Molar sealants are just a painless coating painted on those permanent molars of yours.

Hi! Ready to protect those teeth from harmful bacteria?

Yep, my mom said it won't hurt.

Good! She must have read that on SmileCalifornia.org

I sure did!

Hi Oscar! Ok, This will only take a few minutes, and you'll be back home to finish up your homework and play in no time!

You're all done!

Sealants will help protect your teeth for years along with good brushing habits.

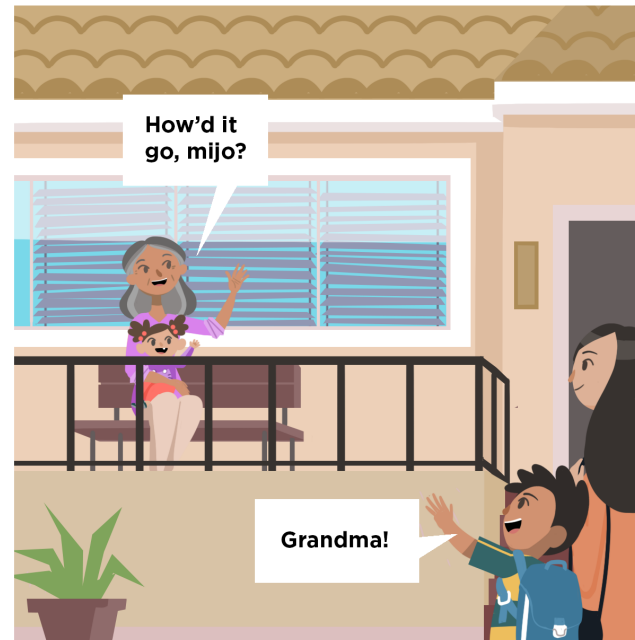

He did great, as usual.

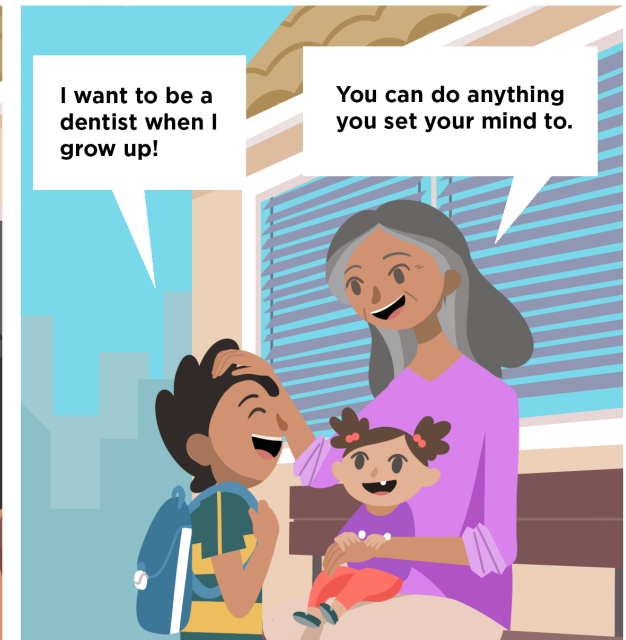

Good job in there, I'm proud of you.

Thanks, mom!

How'd it go, mijo?

Grandma!

I want to be a dentist when I grow up!

You can do anything you set your mind to.

Must have gone well.

Went really well, Mama! When little Mariana gets her permanent molars in, Medi-Cal Dental will cover her molar sealants at little to no cost for us too!
