

SUPER SEALANTS FOR HEALTHY SMILES

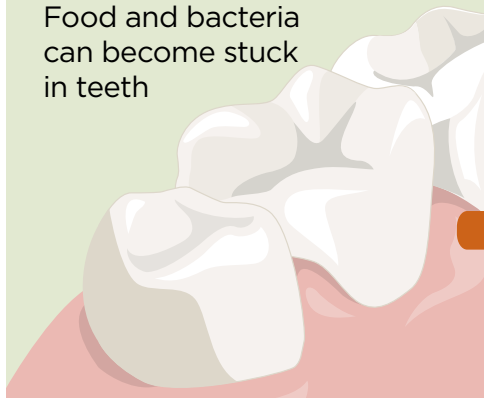

Sealants are protective coatings put on back teeth to help prevent cavities and keep them healthy.

Sealants prevent **80%*** of cavities

Unprotected tooth without sealant

Food and bacteria can become stuck in teeth

Sealant is placed

Placing sealants is painless and takes only a few minutes

Protected tooth with sealant

Tooth is protected from cavities

Medi-Cal Dental covers sealants for children and youths under the age of 21. Visit SmileCalifornia.org/Sealants to learn more.
