Denture relines			☀	☀	☀	☀
Scaling and root planing			☀	☀	☀	☀

*Free or low-cost check-ups every six months for members under the age of 21, every 12 months for members over the age of 21.

**Molar sealants are covered for teens up to age 21.

***For those who qualify.

BABIES

Your child's first dental visit should take place after their first tooth appears, but no later than their first birthday. Baby teeth are critical to your child's health and development. They help him or her chew, speak and smile.

KIDS

Children start to lose their baby teeth as early as five years old. This is when their permanent teeth begin to grow in. Ask the dentist for molar sealants to help protect your child's molars from cavities.

TEENS

Eating sugary foods and drinks, as teens often do, puts them at a higher risk for gum disease and tooth decay. Teenagers who continue to get regular check-ups ensure good oral health well into adulthood.

PREGNANCY

Good oral health care helps prevent problems during pregnancy. As a Medi-Cal member, you are covered during pregnancy and 60 days past the birth of your baby. The best time to see a dentist is in your second trimester (week 13 to week 27 of pregnancy).

ADULTS

As of January 1, 2018, the Department of Health Care Services (DHCS) restored adult dental benefits for members ages 21 and older with full-scope dental coverage. For a complete list of covered services, visit SmileCalifornia.org.

SENIORS

As an older adult, you are prone to gum disease and other oral health problems, but by brushing twice a day, flossing daily and most importantly, seeing your dentist regularly, you can lower your risk.

Learn about your dental benefit and find a Medi-Cal dentist near you at SmileCalifornia.org or by calling **1-800-322-6384**. With Medi-Cal Dental, your visit is free or low-cost. Schedule your appointment today!
