Your Protections as a Medi-Cal Member

The Department of Health Care Services would like to let members know about a new law (Senate Bill 639). This law is effective July 1, 2020. You can find out about how this law protects you by reading below. If your dental provider asks for payment directly from you, you have the right to only accept the dental services covered by Medi-Cal Dental. Your dental provider must follow Medi-Cal guidelines. Some covered services need to be approved by Medi-Cal Dental before your treatment can start.

Dental offices may offer you a credit card or loan to cover treatments and services. When this happens, you have rights and protections that help you decide what to pay for.

1. Dental offices must give you a written notice that clearly explains the credit card or loan. If you speak another language, you may request the notice in your language.

2. Dental offices must give you a written treatment plan. The plan must tell you all the dental services you will receive and the cost for each service. If you are seeing a Medi-Cal provider, the provider must tell you if Medi-Cal will pay for another service at a low or no cost to you. **You have the right to choose to accept only services covered by Medi-Cal Dental.** Your dental provider must work with Medi-Cal Dental to help you get the dental services that are covered at a low or no cost. Your dental provider must follow Medi-Cal guidelines. Some covered services need to be approved by Medi-Cal Dental before treatment begins.

Continued on pg 2
3. If you paid cash for dental services or with a credit card or loan, and ask for a refund for dental services you did not get, your dental provider must refund the cash or refund charges to your credit card or loan within 15 days.

4. Unless you give permission, dental offices may not offer you credit cards or loans when you are in a treatment area (exam room, dental chair, surgery room, or anywhere else you receive dental services). Dental offices may never offer you credit cards or loans after they have given you medication that numbs your mouth, makes you relax or get sleepy.

5. If you have any concerns about credit cards or loans for dental services, talk to your Medi-Cal provider first. They must work with Medi-Cal Dental to try to get the dental services covered.

For more information about your rights under Medi-Cal, check out the Member Handbook section Your Rights and Responsibilities. If you have questions about Medi-Cal Dental, please call 1-800-322-6384.

**Tips to Deal with Dental Fear**

If you are afraid of going to the dentist, you are not alone. About 30 to 40 million Americans do not go to the dentist because of one of these reasons:

- Fear of pain
- Fear passed on from others
- Not knowing what to expect
- Embarrassment
- A bad experience with a dentist

The key is to talk with your dentist and dental staff. They will work with you to find the best way to help you stay calm. **Here are five quick tips from dentists:**

1. **Focus on calm breathing.** When people are nervous, they tend to hold their breath or breathe faster.

2. **Watch what you eat and drink.** Stay away from caffeine or sugary foods before your appointment.

3. **Choose a low-stress appointment time.** Choose a time when you will not be rushed.

4. **Use hand signals.** When you feel uncomfortable, use a hand signal to tell the dentist to ease off or stop.

5. **Share your fears.** If you are afraid or anxious, tell your dentist and the dental staff. They will help calm you or change the treatment.

*Smile, California* can help you prepare for you or your children’s next dental visit. Visit *SmileCalifornia.org* and click on the **Dental Visits** tab for more information. If you have questions about Medi-Cal Dental, please call 1-800-322-6384.
